

Neurogenetics Retreat Agenda
Calamigo's Ranch Malibu Conference Center

January 23, 2007
Guest speaker: David Housman, Ph.D.

8:30-9:00	Arrivals
	Continental Breakfast is served (throughout morning session)
9:00-9:15am	Nelson Freimer -Introduction
9:15-9:35am	Ashley Scott "Imaging Genetics of Learning and Reward in Autism"
9:35-9:55am	Jeremy Miller "A network analysis of gene expression in Alzheimer's disease"
9:55-10:15am	Scott Fears "Phenotyping Vervet Brains"
10:15-10:30am	Break
10:30-10:50am	Eric Wexler "Moods Stabilizers and Neurogenesis"
10:50-11:15am	Michelle Gray "BACHD mice recapitulate phenotypic features of Adult-Onset Huntington's Disease"
11:15-11:35am	Carrie Heusner "Identification of synaptically localized cargoes of the nuclear transport adaptor importin alpha"
11:35-11:55am	Gregory Gale "A genome-wide panel of congenic mice reveals new behavior quantitative trait loci"
12:00-1:00pm	Lunch
1:00-2:00pm	Dr. Housman - <i>Guest Speaker</i>
2:00-2:20	Patty St. Clair "Phenotypes of Activity and Sleep in Vervet Monkeys"
2:20-2:40	Brian Wilburn "A BAC Transgenic Mouse Model of Huntington's Disease Like-2"
2:40-3:00	Break
3:00-3:20	Suren Ambegoakar "An <i>In Vivo</i> Screen for Modifiers of Tauopathy in <i>Drosophila</i> "
3:20-3:40	Renny Feldman "Ubiquilin interacts with Presenilin and causes progressive retinal degeneration in <i>Drosophila</i> "
3:40-4:00	Dan Geschwind -Wrap-up
4:00-4:45	Faculty Meeting (45 minutes)
